Vortex SPS™ Spreader

All Vortex™ spreaders can be used year round for fertilizer, pre-emergent herbicides, insecticides, granular growth regulators, ice melt products and other granular materials. The blower on the patented Vortex SPS™ spreader can be detached in a matter of seconds in order to remove excess granular product from driveways, sidewalks and the leaf surface of ornamental plant material. The Vortex SPS™ is designed to ship in one carton and assemble in minutes. Assembly is easy, attach the four vertical legs, base platform, blower and you are ready to apply material. This lightweight unit is maneuverable in small spaces and is powerful enough to handle large areas, also. Use the Vortex SPS™ in a utility vehicle, pickup truck, pull cart, wagon or boat.

Specifications for the Vortex SPS™

- All aluminum frame, powder coat painted frame
- All Stainless steel valve components
- Fully enclosed material storage to prevent material from becoming wet
- Vortex SPS™ utilizes electric or manual On / Off flow control at delivery hose end, giving the operator the ability to be 5 feet from the main unit
- Lightweight hand held blower used for granular delivery and clean up
- Up to 15 lbs. per minute material application rate
- Fully adjustable valve for varied rate of material delivery
- Non clogging patented delivery system U.S. Patent #6,883,736 #7,080,961 #7,137,579 Other patents pending
- Extension tubes included for longer delivery pattern
- Unlimited maneuverability
- Easy clean-up with liquid soap and water
- Will apply mini prill, standard prill and large pellets
- One person operation
- Small areas are perfect for the patented Vortex SPS™ and patented Javelin Precision Applicator™
- One carton shipping
- Easy assembly, four vertical legs, blower and one base platform
- Valve direct mount in hopper for even flow of material
- Valve configured for minimal dust release
- Use Vortex SPS™ in a utility vehicle, pickup truck, pull cart, wagon or boat
- Vibration kit optional to insure even flow of material in humid conditions
